MAJEDIE ASSET MANAGEMENT US EQUITY FUND

Class Z EUR

ISIN IE00BLH1X584

The Majedie Asset Management US Equity Fund (the Fund) is a sub-fund of Majedie Asset Management (International) Investment Fund Company PLC (the Company), an Irish domiciled Open Ended Investment Company.

OBJECTIVES AND INVESTMENT POLICY

The Fund aims to produce capital growth over the long term through investment in a diversified portfolio of primarily US equities. The Fund is actively managed. The Fund is managed in reference to a benchmark in the context of performance comparison only. It is intended that the investment objective of the Fund will be achieved primarily through investment in a diversified portfolio of equity securities of companies incorporated in the U.S. and/or listed or traded on one or more markets in the U.S. listed in Appendix I to the Prospectus. The Fund's portfolio will be constructed taking into consideration macroeconomic factors (such as interest rates, GDP, monetary and fiscal trends), the outlook for different economic sectors and market capitalisations, and stock-specific factors (such as valuation, market position, investment potential, management quality and financial strength). There is no policy to restrict investment to any particular economic sector or industry.

At least 80% of the Fund will be invested in U.S. equities, with the balance in other international equities (which could include emerging markets equities), cash or near cash.

The Fund may invest up to 10% of its Net Asset Value in other collective investment schemes. Other collective investment schemes could include money market funds invested in for cash management purposes.

The Fund is not expected to generate significant amounts of income.

There can be no guarantee that the investment objective of the Fund will be achieved.

The Class Z (EUR) shares in this Fund are accumulation shares. This means income from the Fund's investments will be included in the value of your shares rather than being paid out via a dividend.

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

RISK & REWARD PROFILE

The Risk and Reward indicator table demonstrates where the Fund ranks in terms of its potential risk and return. The higher the rank, the greater the potential reward but the greater the risk of losing money. The risk category shown is not guaranteed and may shift over time. The lowest category does not mean risk free.

The Fund's Risk and Reward Indicator is based on Fund volatility since inception, and prior to that, the S&P 500 index.

The indicator uses a standard calculation method that is used by all EU companies who offer such funds to allow you to compare funds.

Typically lower reward Typically higher reward

Equity Risk: the value of equities may fall as well as rise and as a class of investment, equities are typically more volatile than other common investment types such as bonds or cash.

Currency Risk: the Fund invests in international securities which are denominated in foreign currencies whose fluctuations may increase the Fund's volatility and losses. Some share classes may be designated in a currency other than the base currency (USD). In such circumstances, adverse exchange rate fluctuations between the base currency and the currency of the share class may result in a decrease in return and/or a loss of capital.

For more information on potential risks please request the Prospectus using the contact details overleaf.

Market Risk: the investments of the Fund are subject to normal market fluctuations and the risk inherent in investment in equity securities and similar instruments and there can be no assurances that appreciation will occur.
